

# Release notes: BigPicture 7.2.2

## Canceled and replaced by 7.2.3

All improvements and fixes from version 7.2.2 are included in version 7.2.3

## Warning

Back up your database before starting the upgrade process or test the new BigPicture version on an isolated environment.

## Known issues

 Please take into consideration known issues which are listed below.

-  **ONE-80** - Templates in Issue Details and Exporting tab in Program Configuration are not displayed on IE CLOSED

## Bug fixes

- Gantt and Risks gadgets does not work on IE11
- Board 2.0: Links are not recalculate.
- Editing link type causes error
- Gantt fails to load when project is longer than a year

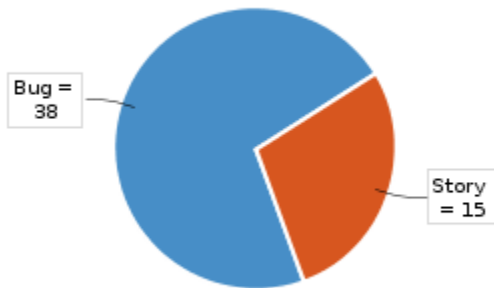

## Key features

Module	Feature	Description
Gantt	'Remaining estimate' mode in Resources Panel on Gantt is available	You can better monitor resources involved on you Gantt charts now. Select "Remaining estimate" effort mode instead of "Original estimate" - analyze time spent in the past and keep track of the remaining assignment of your resources for upcoming working days.
Board <b>BRAND NEW!</b>	Operations on selected issue (e. g. Edit issue) can be triggered by "." on new Board module	Update status, re-assign, change priority and do much more by clicking "." on a Board module.  Find a respective action on selected issue and work with new Board module in the most productive way.
	User can easily go to "Agile schedule" and "Task card layout" configuration from new Board module	You can quickly go to the right tabs of Program configuration and set up you new Board module in a heartbeat.
Widgets (WBS, Skills)	JS files are cached in WBS and Skill widgets	Performance of the widgets (WBS and Skills) displayed on the issue detail page is improved.

 Story	2	9	4	<b>15</b>
<b>Total Unique Issues:</b>	<b>7</b>	<b>29</b>	<b>17</b>	<b>53</b>

Showing 2 of 2 statistics.

T	Key	Summary	P
	ONE-2769	'Remaining estimate' mode in Resources Panel on Gantt is available	↑
	ONE-30	JS files should be cached in WBS and Skill widgets	↑
	ONE-7221	'Marked' state as a generic usage of SP btn component	↕
	ONE-638	Long issue key is always displayed on Roadmap	↕
	ONE-12550	Operations on selected issue (e.g. Edit issue) can be triggered by "." on Board 2.0	↕
	ONE-1876	RR shortcut re-synchronizes Program scope on the Scope module	↕
	ONE-6891	RxJS - update version to 6.3.2	↕

	ONE-18	Status lozenge color on Gantt module is aligned with new guidelines	
	ONE-13193	Task background color in Resources module by statusCategory (aligned with ADG colors)	
	ONE-6956	Technical Info page is angularized	
	ONE-93	User can easily go to "Agile schedule" and "Task card layout" configuration from Board 2.0 module	
	ONE-601	Absences should be renamed and reordered	
	ONE-81	Capacity Planning on Board has new icon/place	
	ONE-7014	Consistent placeholders for ABC and JQL search modes in every module	
	ONE-6982	Dropdown menu component is fully compliant with touch-screen devices	
	ONE-577	Board 2.0: Links are not recalculate.	
	ONE-595	Board 2.0: can't delete Agile Schedule	
	ONE-524	Gantt and Risks gadgets does not work on IE11	
	ONE-642	Gantt fails to load when project is longer than a year	
	ONE-485	NoSuchMethodError: com.atlassian.greenhopper.service.rapid.view.ColumnService::getColumns thrown when saving team specific configuration based on sprints	
	ONE-618	Adding WorkRatio field with aggregation leads to java.lang.ClassCastException during Gantt data loading	
	ONE-551	Adding rows to GlobalTask and WbsNode tables with ConstraintViolationException should not throw errors	
	ONE-381	Aggregation of date type data causes disappearing of the values in the Scope module	
	ONE-570	Board 2.0: Header content is broken after move left or right between Iterations. (IE)	
	ONE-251	Board 2.0: Links not change position after recalculate task cards.	
	ONE-581	Board 2.0: inactive "editing" button on Roadmap locks Timeline on Board.	
	ONE-866	Cannot move task card on Risks matrix on Safari	
	ONE-480	Change of status' name results in change of status lozenge color	
	ONE-541	Dependency bugs in resource module	
	ONE-494	Editing link type causes error	
	ONE-623	Empty name is accepted when editing marker causing Error 500	
	ONE-536	Moving between PIs on Iterations level is obstructed on IE11	
	ONE-608	No Dialect mapping for JDBC type: -9	
	ONE-12493	Shortcut module does not work on IE and Edge	
	ONE-479	Sometimes after changing between Individuals and Teams modes on Resources module Load more tasks button shows up	
	ONE-588	Task does not accept anonymous period updater	
	ONE-11082	The clear all filters options is not available in Scope and Resources module	
	ONE-1376	Time tracking formula provides incorrect results	
	ONE-662	TimeTrackingProgress isn't accessible for mapping to task configuration Progress Field	
	ONE-5841	Tooltip for not empty and not editable fields should be visible on hover with field name	
	ONE-439	Board 2.0: broken user interface in Scope Synchronization after delete customfield.	

---

	ONE-568	Board 2.0: colour of background one of button is different than the others in header.	
	ONE-518	Gantt's vertical scrollbar is badly displayed	
	ONE-17	Hovering over assignee field, but not over user name link don't underline assignee name	
	ONE-634	Missing cursor: pointer on sp-back-icon within resource manager
