

# Release notes: BigGantt 4.0.2

## Canceled and replaced by 4.0.3

All improvements and fixes from version 4.0.2 are included in version 4.0.3

## Known issues

### Warning

Please take into consideration known issues which are listed below.

-  **ONE-80** - Templates in Issue Details and Exporting tab in Program Configuration are not displayed on IE CLOSED

## Bug fixes

- Broken WBS widget
- Gantt and Risks gadgets does not work on IE11
- Gantt fails to load when project is longer than a year

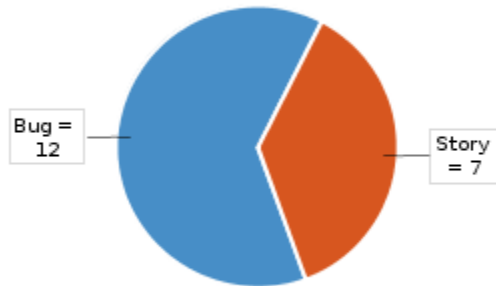

## Key features

Feature	Description
'Remaining estimate' mode in Resources Panel on Gantt is available	You can better monitor resources involved on you Gantt charts now. Select "Remaining estimate" effort mode instead of "Original estimate" - analyze time spent in the past and keep track of remaining assignment of your resources for upcoming working days.
JS files are cached in WBS and Skill widgets	Performance of the WBS widget displayed on the issue detail page is improved.
