

# Gantt - View - Adding markers

## Adding markers

Markers can be added to the timeline to, for example, mark a deadline or to indicate the current date.

The marker will be then visible in all the modules which include the timeline.

There are two types of markers:

	Feature	Description
1		<ul style="list-style-type: none"><li>• red colour - indicating the current date.</li></ul>
2		<ul style="list-style-type: none"><li>• blue colour - custom marker.</li></ul>
